GRAVE MISTAKE.

OFFERS EMPTY REFORM

Emperor's Decree Extending Fran-
chise in Prussia is Vague and May
Apply Only After War is
Ended.

Copenhagen, July 13.—The Berlin Lokal Anzeiger says a communication from the Austro-Hungarian government has been received in Berlin declaring Dr. von Bethmann-Hollweg's continuance in office as chancellor is of importance, and his retirement possibly a grave mistake.

The Austro-Hungarian committee of the Reichstag, on the other hand, believes Dr. von Bethmann-Hollweg unsuited to conduct peace negotiations and says he should be replaced before an ultimate peace conference.

News reaching here from Germany says Polish members of the Reichstag interpellated Chancellor von Bethmann-Hollweg about the deportation of thousands of Polish men and women to Germany, where they are compelled to labor.

The interpellation says troops are being employed forcibly to drag victims from their homes.

Decree on Franchise.
Berlin, July 13.—Emperor William has directed the following decree to the president of the state ministry:

"Upon the report of my state ministry, I have decided to order a supplement to the same, that the draft of the bill dealing with alteration of the electoral law for the Reichstag, which is to be submitted to the diet of the monarchy for decision, is to be drawn up on basis of equal franchise. The bill is to be submitted in any case early enough that it may be ready for the Reichstag at the next elections may take place according to the new franchise. I charge you to make all necessary arrangements for this purpose.

(Signed) "WILLIAM."
(Countersigned) "BETHMANN-HOLLWEG."

ALUMINUM DEMAND
INCREASING DAILY

Chicago, July 13.—The United States will require 50,000 tons of aluminum a year for airplane and motor vehicle construction to carry on the war against Germany, according to Dr. F. C. Weber of Chicago, a chemist and experimental inventor.

This amount of aluminum, Weber says, cannot be obtained from bauxite in present quantities. We must use bauxite of Germany, which the Germans have been using since their source of French bauxite has been cut off.

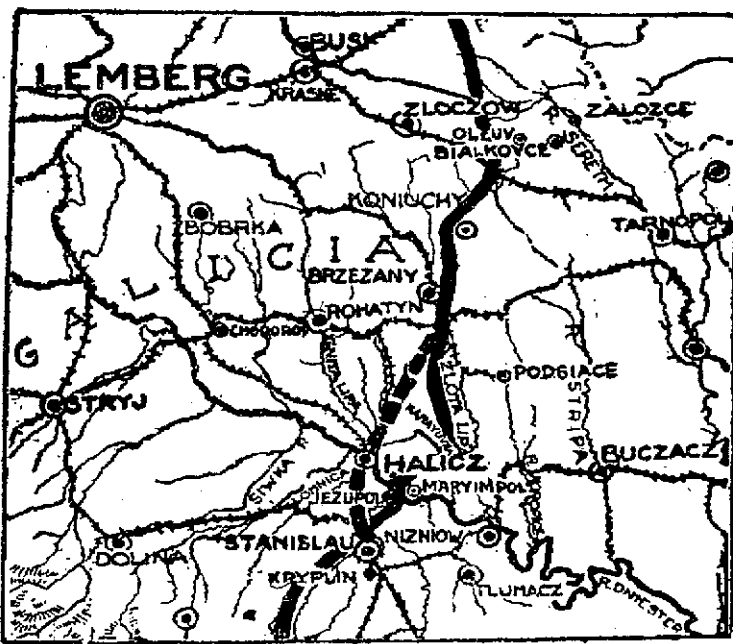

Weber has submitted his theory to the Society of Industrial Engineers, which in turn will discuss it with the Council of National Defense.

SET SIZE LIMIT ON
PERCH AT 8 INCHES

Madison, July 13.—Governor Philipp today signed the fish and game bill designed to limit the catch of perch to those measuring not under eight inches. An attempt had been made to have the governor send the bill back on the ground that it would hamper the commercial fishermen of the Lake Shore.

With only two corrective measures and a drainage bill to be passed upon by the governor, it appeared probable today that the legislature would adjourn by tomorrow night.

Speaker Whittey said the matter would have to be determined by tonight as a number of members over the state had asked to be notified of the time they can be here to witness the close.

GEN. KORNILOFF, RUSSIA'S LATEST MILITARY HERO,
IS LEADING ARMIES IN GREAT GALICIAN OFFENSIVE

Map of the Russian advance and first picture of General Korniloff.

The map's dotted line shows General Korniloff's recent gains in Galicia, and the possession of Halicz, the strategic key to Lemberg. The co-operation of the Seventh and Eleventh Russian armies north of Halicz with the Eighth army south of that city has gone forward with faultless precision. Military critics declare that the Austrian and German armies in Galicia have been greatly demoralized by Korniloff's powerful advance and that the break of the Austro-German line in the Halicz-Stanislau sector indicates further rapid advances of the Russian forces.

U. S. ARMY IN FRANCE
TO OBSERVE FRENCH
NATIONAL HOLIDAY

Paris, July 13.—Observance by the American troops in France of the French national holiday is provided in a proclamation issued today by Major General Pershing. It follows:

"July 14 is hereby declared a holiday for all troops in this command. The people throughout France will celebrate on that day the declaration of the sacred principles of liberty, equality and fraternity, in defense whereof we are now in France to fight by the side of the French soldier. This is a glorious privilege that the American army has in uniting with the gallant soldiers and loyal people of France in acclaiming with them on their national holiday."

One hundred and fifty battalions in the American army have been retained in France to observe the holiday.

This means that according to the estimates of the United States, the American army now has mobilized or under arms approximately 467,000 men.

These men are being trained in the service of the French army.

Give Credit in Draft
For All Volunteers
In Army and Guards

Washington, July 13.—The table from which the net quotas for the draft were compiled shows all enlisted in the National Guard and National Guardsmen are to be given credit for their service in the army.

The instruction to governors from the secretary of war, accompanying the table, directs that the quotas be given among exemption board districts, so that each board in each district will know exactly the number of men to be furnished by the district in filling the state quota.

Contrary to expectations, the government has allowed credit for total strength of national guard, including all those who were in the service prior to April and who have been retained.

This means that according to the estimates of the United States, the American army now has mobilized or under arms approximately 467,000 men.

KERENSKY CHEERS MEN

Russian Soldiers Are Stirred By Presence of Minister of War at the Firing Line.

[BY ASSOCIATED PRESS]
Washington, July 13.—The new Russian offensive is shown in dispatches to the embassy here today not only to have opened the road to Lemberg, the capital of Galicia, but to have cut south against the Austrians at Stanislaw, at the foot of the Carpathians, in such a way as to affect seriously the Austrian forces operating against the newly restored Rumanian army.

General Korniloff's sweeping advance is explained by dispatches as due to driving a wedge between two German armies, cutting their communication between the two and even threatening the main communication. The 53rd and 75th German divisions under General Pothmer, reinforced by the landsturm, saved themselves from utter annihilation and from precipitous retreat only while General Kirbach's forces were forced back in sympathy.

Kerensky at Front.
Minister of War Kerensky is reported as present when three lines of German and Turkish trenches broke before the Russians at Brzezany several days ago. His presence in the forefront and his stirring addresses greatly enthused the Russians, said to be striving for the honor of being the first to enter the city.

Conditions in Petrograd are said to be continuing to clear up. Many of the troops held there are going to the front. The radical Bolshevik party has issued a statement that their fight is not in any sense in sympathy with anarchists and general socialists.

Russ Take Prisoners.
Petrograd, July 13.—In course of the battle in eastern Galicia Wednesday says an official statement issued today by the Russian war department the Russians captured ten officers and eight hundred and fifty men, chiefly Germans, and took five heavy guns and ten machine guns.

Sheriff Has Subpoena
For County Coal Man
In State Price Probe

At least one Rock county coal dealer will face the Wisconsin Council of Defense and tell what he knows or what he does not know about allegations of the state board that combinations of dealers in various Wisconsin cities are "bleeding" the public by exorbitant prices.

The subpoena for the coal man arrived this morning. For fear that with the announcement of the name of the witness he would perhaps decide to leave the state, Sheriff Whittey refused to announce any name. For all that the county law and order head would divulge it may be a Janesville man, or again, it may be a Beloit man. Edgerton man, an Evansville man, or in fact any coal dealer of the county. The subpoena is returnable Tuesday. The sheriff will serve it tomorrow, possibly this afternoon, he announced this morning.

THREE ARE DEAD IN
CRIME AT MAUSTON

[SPECIAL TO THE GAZETTE].
Mauston, Wis., July 8.—Chief of Police Alsbacher today announced that three bodies had been found in the woods near Mauston, late Thursday afternoon and found the bodies of Alsbacher, his mother, Mary, and Daniel Gray, who they had sold their place, lying in blood.

All three bodies had bullet wounds. One supposition is that Gray shot the other two and then killed himself. It is said that the parties had had a dispute over the sale of the property. The tragedy occurred late Wednesday night. Some of the neighbors remember and hearing reports that it sounded like shots at about midnight, but the crime was not discovered until Thursday afternoon.

Police Chief Forces Door.
It was noticed that Alsbacher had failed to appear at his office and that the lights had been burning in his home. These suspicious circumstances induced the chief of police to enter the home.

All three bodies lay at the foot of a stairway in the sitting room. Their positions led the chief to believe that Alsbacher was first killed. There were two bullet holes in Alsbacher's body. When Mrs. Alsbacher, the mother, heard the shots, she is supposed to have fled the house. She was found as she stepped into the room. Gray lay at Alsbacher's feet with a bullet in his head.

Gray used to live in Mauston many years ago, but he moved to Bloomer, Wis., where he is said to have been a farmer. He returned to Mauston only a short time ago and bought the Alsbacher home. On Wednesday he was allowed to move his household goods, although the Alsbachers still occupied the premises.

Gray was quarreling over the sale and that it resulted in the tragedy. Gray is said to have shown signs of mental disturbance.

Thursday afternoon a coroner's inquest began but was adjourned for a week.

Gray is said to have a son living near Milton Junction. He has been identified by the dead of his father. Gray was about 62 years old.

Alsbacher was 46 and an old resident. His father, L. L. Alsbacher, who died some time ago, was a wealthy farmer and the son succeeded him. The mother was about 70 years old. A sister, living in Minneapolis, survives them.

The inquest date was fixed for July 19, it was announced today by the police.

Authorities expressed the opinion that Gray who had recently purchased the Alsbacher home, had mentally advanced theory that Gray shot Alsbacher and his mother and killed himself following dispute over financial affairs.

OLD STYLE VESSELS
RIGGED FOR SERVICE

Army Men Sent to Secure A Report
on Situation — Wilson Warns
Against Civilian Taking Law
Into Own Hands.

[BY ASSOCIATED PRESS]
Columbus, N. M., July 13.—The army of I. W. W. deported from Bisbee yesterday and whose special train of cattle cars and box cars was sidetracked at Hermanas, N. M., late last night, left Hermanas during the forenoon today and is strung for a mile or more along the railroad track, walking east in this direction, according to reports received here.

Relying on this information, Columbus citizens turned out heavily armed to repel any "invasion" the situation of the deported persons was described as desperate. Hermanas railroad station was surrounded but a few hours had no supply or feeding, the I. W. W.'s, numbering 1200. It was feared a situation difficult to control might arise if they swarmed into town here.

El Paso Prepares.
El Paso, July 13.—Acting on advice from Columbus that the railroad of I. W. W. persons departed from the Warren district of Arizona, left Hermanas, Ariz., this morning to walk to El Paso, city officials made prompt preparation to deal with the situation.

It was planned to feed those in need of assistance as they came in and at the same time to report to the military authorities any acts of violence deemed advisable.

A special train with food supplies, sufficient to feed the Industrial Workers at Hermanas, two or three days was sent from El Paso this afternoon. It was announced at headquarters of the El Paso & Southwestern railroad. This followed receipt of report of Brigadier General George B. Johnston, commander of the military forces at that point, that the situation was dangerous.

Wilson Warns Governor.
Phoenix, Ariz., July 13.—Governor Campbell this morning received the following message from President Wilson:

"Secretary of war has instructed General Parker to send officers to Arizona to report on the conditions there with a view to cooperating in maintenance of order.

"Meantime may I not respectfully urge the great danger of citizens taking the law into their own hands. Your report indicates their having done. I looked upon such action with apprehension. A very serious responsibility is assumed when such questions are thus settled. (Signed) Wilson."

No Report From Parker.
Washington, July 13.—The war department was without a report today from Arizona or headquarters of the southern department, indicating that Major General Parker used federal troops in the maintenance of order in the region where disturbances have been created by the Industrial Workers of the World.

Parker ordered were to cooperate with the government of Arizona and take up measures as he regarded necessary for the protection of life and property. He was cautioned, however, to show no partiality and not to use the troops in support of any faction, avoiding participation in any controversy.

Seeks Source of Censorship.
Phoenix, Ariz., July 13.—Governor Campbell stated today that he has been endeavoring since yesterday when he was informed by Associated Press representative of the censorship authority to ascertain by whom it was established and by what authority. At the offices of state corporation commission which has control of all public utilities, corporation, "yes," the department will take immediate action on preservation of interference on the part of any person or any corporation with transmission of an interstate message.

Reports from Bisby today indicate that a mining official known as "Captain" and generally dressed as a seaman, was the person responsible for imposing the censorship, the operator in the office believing him to be a regular army officer.

German Aid Agitators.
Miami, Fla., July 13.—Ten German subjects, several of whom are believed to be army officers, have been located in nearby camps. They are believed to have been sent here to assist the I. W. W. agitators in the copper mines of Miami and Globe.

Heavy guards of United States soldiers have been placed around the powder magazines owned by mining companies.

Censor I. W. W. News.
New York, July 13.—The Associated Press was informed late Thursday that federal authorities at Columbus, N. M., had taken control of all telegraph offices there and had placed a censorship on matters relating to I. W. W. troubles and deportations. A military censorship also was imposed at Douglas.

SALOONS CLOSED TO MEN OF COMPANY M

PROSECUTE ANY SALOON KEEPER WHO SELLS LIQUOR TO MEMBERS OF COMPANY M AFTER SUNDAY.

WILL ENFORCE U. S. LAW

Men Not in Uniform To Be Disturbed By Special Ribbon—To Drill Five and a Half Hours A Day

Janesville will be a dry town for the soldiers. Absolute compliance with the federal regulation prohibiting the sale of liquor to any man in the federal service will be enforced here, following the mobilization of Company M Sunday morning and their calling into federal service at that time.
This announcement was made by Captain E. N. Caldwell this morning with the warning that any saloon keeper who is known to violate the federal regulation will be prosecuted to the full extent of the law. Every member of the company not in uniform will be designated by a ribbon, stating that he is an enlisted man in Company M, on duty, thus abrogating the possibility of excuses on the part of local saloon men.
Further restrictions to enforce the government dry ruling will be made in that any member of the company known to have been in a saloon or found to have partaken of liquor or to have had it on his person, will be given summary trial by the company commanders.
Up until this time the men have been members of the national guard and did not come under the jurisdiction of the federal law but upon their mobilization they enter the service of the United States, and strict compliance with the government's "bone dry" policy for its fighting men will be required.

Police Orders.
Though it has been known for several days the mobilization would take place on Sunday, official orders were received this morning by Captain Caldwell in a telegram from the Adjutant General of the state: "By direction of the governor, you are informed that the mobilization of the federal law will be made effective by the official war department telegram, calls your organization into federal service on July fifteenth."
Notices have been sent to every member of the company and mobilization will take place at eight o'clock Sunday morning. At that time they will enter the federal service and under government pay, though formal drafting will not take place until the fifth of August when the entire national guard of the country will be officially mustered in.

It is probable that the men will be quartered at the local armory until the middle of next week, when they will entrain for Camp Douglas. The exact time for their departure depends largely upon the available supply of tentage at the camp, and it is possible that the unit will be kept here for a longer time, during which they will be drilled for five and a half hours each day, in addition to other prescribed activities of the daily routine.
From eight until eleven each morning and from half past one to half past two, exercises in the school of the soldier and the manual of arms will be taken up. Captain Caldwell plans to do most of the drilling, and to enter in the upper Court House Park or at the fair grounds, and possibly at both places. Short hikes will be arranged, and everything possible in the training will be undertaken with the equipment at hand. Each afternoon the officers will conduct a school for non-commissioned officers.

Though over thirty non-commissioned officers have been appointed, their positions are entirely dependent upon their ability, and it is possible that many changes will be made if the men do not show up well under the rigorous conditions of training. There are now four vacancies for sergeants and three for corporals.
Sunday afternoon at two o'clock the entire company will be assembled and the armory cleared of all spectators, for a medical examination to discover possible traces of any infectious or contagious disease among the men. The examinations will be conducted by Dr. F. E. Farnsworth, examining physician of the company, and are prescribed as a preventive measure to guard against the outbreak of any disease among the men before they are sent to Camp Douglas.

Following the departure of the company for Camp Douglas, a special detail of one commissioned officer and two enlisted men, will be left in Janesville to serve as a recruiting squad. They will remain here until the company is full and the recruits called by Captain Caldwell. The personnel of the detail has not yet been determined.
The transfer of one more man, Fred Finberry, from Company L at Beloit, boosts the enrollment to 144, but six under the required number. Finberry was today made a corporal in the company, and he saw service on the order last summer with the Beloit unit.

There are still about fifteen applications to be heard from, of which number at least ten have passed the physical examinations. Captain Caldwell has reason to believe, however, that some of these men will never complete their enlistments, and is making all the time before the mobilization to enlist the unit up to full strength. A good many rejections must be expected in the federal medical examinations and it is the hope and intention of the company to recruit well above the minimum figure.

JAMES T. CUTTER CALLED BY DEATH

Aged Resident of Rock County Passes Quietly Away at His Home on Sinclair Street.

In the death of James Theron Cutter, 23 Sinclair street, which occurred as a result of a long illness, Rock county lost one of its oldest and best loved settlers. Mr. Cutter had been a resident of the county for well over half a century and was a man widely known for many years.

He was born March 24, 1836, in Essex county, New York, but came west with his family as a mere boy. Making the trip by boat through the great lakes, in the days when the lake vessels were but the towed forerunners of those of today, the family journeyed overland the Milwaukee, settling in Emerald Grove, here Mr. Cutter grew to manhood on his father's farm, and here he spent most of his days as a prosperous farmer.

He was married in March, 1862, to Miss Louise M. Saxe, at the old Norris house in this city. To this union four children were born, one boy dying in infancy, and the other three boys, but Mr. Cutter has been away nine years ago. He is survived by two daughters, Mrs. Elma A. Dyke, of this city and Mrs. Louis P. Zinke of Chicago, also by one grand daughter, Mrs. Ray Stevens of Calumet, Illinois, and a sister, Mrs. H. E. Stanton of Durand, Wis.

For the last eleven years Mr. Cutter had made his home in Janesville. Here he became affectionately known as "Daddy" Cutter among a large circle of friends, with whom he spent most of his time during the closing years of his life.

The funeral will be held Sunday afternoon at two o'clock from the home on Sinclair street. The Reverend F. J. Lewis of the Methodist Episcopal church will officiate. Burial will be in the cemetery at Emerald Grove.

DENTISTS EXPRESS GRATITUDE TO CITY

Extend Thanks to Mayor and Citizens for Generosity and Hospitality During Convention.

As the culminating event of the forty-seventh annual convention of the Wisconsin State Dental society which closed its session here yesterday, resolutions were passed expressing the appreciation of the society for the hospitality and generous treatment shown them by the city of Janesville. Formal thanks were extended to Mayor Fathers for the extension of the freedom of the city to the visiting dentists.

He also to the people in general for the consideration shown the delegates during their three days' visit in Janesville.

The gratitude of the society was offered the Commercial club for the assistance rendered in bringing about a successful convention, for the loan of automobiles, and to the many people who aided in making the visit a pleasant one.

Raymond H. Pierson of the First Baptist church also received the thanks of the society for his invocation at the opening session.

The choosing of this city for the 1917 convention was considered the hands of the executive council and will not be made until later on.

THURSDAY'S MARKETS.
Chicago, July 13.—Small packers, shippers and the speculators made a runaway affair of yesterday's early hog market, some sales being more than 25c higher than Wednesday's heavy receipts.

Practically all of the large packing firms refused to follow the early advance in swine, resulting in a top-heavy trade late, with sales 10c to 15c below the opening and 5,000 left in the pens.

Receipts for today are estimated at 2,500 cattle, 14,000 hogs and 12,000 sheep, against 2,490 cattle, 13,264 hogs and 12,227 sheep a year ago.

Average price of hogs at Chicago was \$15.25, against \$15.07 Wednesday, \$15.35 a week ago, \$9.93 a year ago and \$7.23 two years ago.

Calves Decline Sharply.

FENCE ISLAND ROAD AS PUBLIC SAFEGUARD

New Road Plainly Marked and Illuminated at Night by Arc Lights—Re-route Bluff Street Traffic.

Street department carpenters today erected fences along the edge of the Goose Island-North Bluff street gas bend cross-over all as a further protection against accident. A number of electric lights illuminate the end of North Main street and the road across the island, and Superintendent of Streets Commissioner P. J. Goodman feels that the traveling public is amply protected.

Sign boards were being made this morning and were to be placed before nightfall along the route all around North Bluff street while it is being repaired.

Against the Wind

By REV. B. B. SUTCLIFFE
Assistant Superintendent of Men,
Moody Bible Institute, Chicago

"...He saw them toiling and rowing
against the wind was contrary to them.—Mark
4:35.

Jesus had risen to the highest point
of his popularity when the people
were ready to make him their
king. It may have looked to the
disciples that the time had come
when they would be installed in
prominent places in his kingdom.
From this place of popularity and
seeming success they were sent
back into the familiar and the
common-place.

Storm and Toil.
The Master knew the storm was coming when he
sent them out upon that lake to cross
to the other side. It may have looked
like fair weather to them. There
may have been no hint from the air
or sky of the coming storm. But all
the time he knew what they were
going to meet out there upon the water.
And he knows our way. He is ac-
quainted with every step that lies be-
fore us. We have met no storm that
has not first blown past him and we
may boldly say with the Psalmist of
old, "My thine are in Thy hands."
We can hear him say as we see the
storm-clouds gathering, "As thy day
so shall thy strength be." And
these disciples knew it the presence
of the storm was no sign they were
out of his place, and this is as true
for us. But the storm was there and
he had sent them into it with its con-
sequent toil.

Place of Danger.
The difficulty and danger of their
place was not because of the toil.
They were doing what they were ac-
customed to do for they were fish-
ermen on that lake. Neither did their
difficulty and danger come from the
storm. From their long acquaintance
with that lake they would be familiar
with storms. But their danger arose
because of their loyalty to the Mas-
ter's command. He had told them
to go to the other side, knowing that
if they went, they would go against
wind and wave. They may not have
made much progress against the
storm, but at least they were headed
right in the path of obedience. It is
in this path of obedience that the
Christian meets the difficulties. He
fears he must sometimes go against
the storm of public opinion, the wind
that rises in the business world some-
times blows contrary to him, and even
in his home he may meet difficulties
if he obeys the Lord. It is compara-
tively easy to run with the storm; it
is difficult to row against it. As some-
one has said, "any dead fish can go
down the stream, only a live one can
more against the current."

Place of Safety.
Their safety came not because of
their seamanship. They were going
not only contrary to the wind, but
contrary to their knowledge of how to
handle the boat in such a time of
stress. Had they exercised their sea-
manship they would have turned
about and run before the storm, but
because the Master had said to go for-
ward, their loyalty to his command
forbade them seeking safety in dis-
obedience. However, they were still
in the place of safety in spite of their
seeming recklessness. Neither were
they safe because of the seaworthiness
of their boat. However good the
boat may have been, they were doing
the very thing that their experience
told them would swamp it. But we
are told in verse 43 that the Master
was watching them. He could measure
the weight of every wave and the
force of every blast of wind. He
would know just the moment to say
"Peace, be still," to both wind and
waves. It is not what we see and
know, but what he sees and knows.
He who notes the sparrow's fall and
counts the hairs of our head will
never place us where the waves are
too mighty or the wind too strong.
He knows what lies before us. He
often sends us into the place of toil
and storm—the place of difficulty and
danger—but he is always watching,
and because of his watchfulness, our
place, however dangerous, is the place
of perfect safety.

Place of Satisfaction.
Finally he comes to them walking
upon the sea and moving against the
contrary wind. He passes through the
wind that was so difficult to them with
perfect ease. The storm raged about
him as it did about them, but he was
superior to it all. The measure of
our obedience to him will be the
measure of our superiority to every
storm, our calmness in every danger,
and our safety in every difficulty. If
this should meet the eye of one of
God's tempted ones in the midst of
stress and storm, let him know that
in the midst of the darkness he is
abundantly walking with them against
the contrary wind and saying, "Be of
good cheer, it is I, be not afraid."

Born of God, attach thyself to him,
as a plant to its root, that ye may not
be withered.—Demophilus.

Golden Text: He that cometh to
God must believe that he is, and
that he is a rewarder of them that
seek after him. Hebrews XI. 6.

HEZEKIAH, THE FAITHFUL KING
After the war came the beautiful
afternoon. Hezekiah, who was
brought to pitiful degradation. The
material spoliation of temple was sig-
nificant sign of a still greater injury,
the deterioration of patriotism. The
moral tone of the nation was lowered,
its ethical sense confused, its spiritual
life lost.

Happy was it
for the state that at this juncture a
king came to the throne in whose
heart the fear of God was transcribed
with ardent love of country. Beneath
this fervency was a sound judgment,
a native ability which commanded re-
spect and enlisted co-operation.
* * * Striking illustration of the
king's statesmanship is found in the
very date selected for the beginning
of reform. He did not take the first
month of his reign, as if to say, "This
is my reform." Instead he postponed it
to the first part of the sacred New
Year as if he would say, "This is the
call of Jehovah, the institution he or-
dained. Come let us return to the
worship of the God of our fathers!"
Again he did the first thing first. He
recognized the sacerdotal order. Ap-
pointing a time for meeting the priests
and Levites he reviewed the situation
in words as frank and wise as to dis-
cuss the subject. By the very sanctities
of their office he entreats them to pre-
pare to resume their ministry and
with him try and test God and see if
he will not turn away his fierce wrath
as indicated by the indignities heaped
upon the nation. Irreligion, the loos-
ening of the bonds with God, had been
source of all the trouble. If persisted
in it would bring still greater dis-
aster. What the nation needed more
than armies, fleets or fortresses was
Religion, to be bound again to God in
a new covenant. The closed and fil-
thy temple was the significant sign
of the broken relation between God
and the people. Its thorough cleans-
ing by a priesthood already cleansed
was a first step toward a renewal of
the covenant.

For eight
years and nights the house-cleaning
went on systematically and thorough-
ly. The debris of years of neglect and
profanation was carted out and dump-
ed in Kedron. What remained of the
sacred furniture was refurbished, what
was gone was replaced. When the
last thing was done the workers re-
ported to the king joyfully. "We have
cleansed the house of the Lord." * * *

The speaking ritual of the
church was at once resumed with ap-
pointed sacrifice, incense and sacred
music, orchestral and choral. Al-
though preparation had been gradual
the consummation seemed sudden,
the change was so complete. King and
people rejoiced.

Hezekiah's institution of the
tithe, his victory over Sennacherib
with the sole weapon of prayer, his
providing Jerusalem with a water-
supply, his wealth and graciousness,
bringing his great career to a fitting
close. In strong antithesis to the dis-
position of the remains of his father,
of whom it was said, "they brought
him not into the sepulchre of the
kings," it is recorded of Hezekiah,
"they buried him in the chiefest of
the sepulchres of the sons of David."

THE TEACHER'S LANTERN.
The young king Hezekiah is an in-
spiring example of triumph over an
evil environment. In spite of the bad
model set by his father, the ex-
ample of the court and a people's in-
dependence defined his policy and re-
sulted in a Seneca for a tutor in the
person of Isaiah. The results of the
private instruction were soon public.

* * * It is a great thing to have
the training of a king, but in a democ-
racy any teacher may be training a
future ruler. Any boy may be presi-
dent, Jackson was a poor orphan.
Tyler was cradled in a saw-trough.
Garfield drove a mule on the tow-
path. * * * There were no
electrical means by which Hezekiah's
invitation to the Passover could be
sent, but the Syrian "post" was aston-
ishingly swift and sure. * * *

In each individual there was that ul-
timate element of selfhood which
made it possible for him to accept or
decline. * * * To the festival
of Divine love and pardon the univer-
sal invitation is extended. Each is
free to accept or decline. * * *

refuge of all his children. It is a
small thing for him who keeps the
planets in their orbits to prevent the
slipping of a child's foot. Ceaseless
is his watchfulness. He never slum-
bers. His eyes are never closed. Has
the heat of sorrow reached the smit-
ting point? God will eclipse and
quench it by the intervention of his
own person. He directs the path and
preserves the way, going out with
one to his daily toil and returning
with him at the close. The little
daughter of the ship captain was
asleep in her father's cabin when her
first storm at sea awakened her. In
alarm she cried, "Mama, what is that?"
"A storm," the mother said. "Is papa
on deck?" was the next question.
When the mother said "Yes" she turned
her curly head upon the pillow and
was fast asleep in an instant. The
child of the Captain need not fear.
God walks the quarter-deck.

People visiting certain
building in Washington are apt
to meet hustling through the
halls, a short, compact, and well
groomed man, with a penetrating
eye and the habit of econ-
omy of speech. That's Julius
Rosenwald, chairman of the
Committee on Supplies of the
Council of National Defense, on
his daily walk through the cor-
ridors planning new "stunts"
in the government's interest.
He is both a capitalist and
imperialist in his government's
work. He has applied mail order
methods (he's president of the
Sears, Roebuck Co. of Chicago)
to buying for the government's
clothing and food, that most
officials have ceased to worry
how the new army is to be
equipped. Rosenwald's problem
was—where can we buy this
material, which dealers ought
to share in our orders and what
prices ought we pay. Believ-
ing that the government's prob-
lem is little need for the mid-
dle man he has co-ordinated the
buying of the army and navy
and assisted the departments
deal directly with the pro-
ducers.

PROVIDE A SUMMER SESSION FOR BLIND AT STATE SCHOOL

(SPECIAL TO THE GAZETTE.)
Madison, July 13.—In order to aid
adult blind people in learning a trade
that will assist them in securing a
livelihood, this session of the legis-
lature enacted a law (Chapter 418)
providing for a summer school for
adult blind persons at the school for
the blind at Janesville. No summer
school will be held this year, because
the appropriation did not pass in
time. Beginning with next year there
is annually appropriated for a sum-
mer school for this purpose of \$1,500.
The bill declares the object of the
school for the education of the blind
and for the summer session shall be
to aid blind people to obtain "the
means of subsistence and the duties
of citizens and to secure all the
happiness which they are capable of
attaining."

Aid to Blind Students.
Aid will also be given to blind stu-
dents who wish to secure a higher
education. A law was enacted
(Chapter 581) providing that any in-
digent blind person who has been a
resident of the state for at least five
years preceding the making of the
application for aid and who is a regu-
larly enrolled student in any univer-
sity, college or conservatory of music
shall receive aid for the purpose of defray-
ing his necessary expenses, including
those of a reader, while in attendance
at such university, college or con-
servatory of music. The amount of
such aid to any person shall not ex-
ceed three hundred dollars in any one
year nor shall the total amount of
such aid exceed \$1,500.

Another bill to help the blind,
(Chapter 582) relates to aid in pro-
curing employment. This measure di-
rects the free employment offices of
the state to give aid in procuring em-
ployment for blind adults. The legis-
lature has passed a bill that
many blind people have been given a
special technical education in certain
technical and mechanical lines, but
are unable to secure employment be-
cause they are not able to get in
touch with employment. To assist
these blind artisans in procuring em-
ployment, the free employment offices
are directed to aid them in securing
positions.

Increase County Aid.
One of the most important of the
measures given county boards the
right to appropriate aid to blind per-
sons with no income. Under the old
law blind persons bona fide residents
of the state for ten years and in the
county in which they were making
applications for at least one year,
were entitled to receive \$100 benefit
per annum, payable quarterly, if the
county board so decreed. This sum
of money was given on the assump-
tion that the annual income of the
blind person was less than \$250 per
year.

Because of the increase in living
expenses the legislature has enacted
a law permitting the county boards to
give a minimum of \$150 annually and
such additional aid as the county
may determine. Chapter 373.
Before blind people in the state will
be able to get this additional aid, the
increase of \$50, it will be necessary
for the county boards of the state to
approve the provisions of the legisla-
tive law. Those who are interested
in the blind population of the state,

believe that practically every county
board of the state will avail them-
selves of the provisions of this law at
once. Most of the county boards have
their session in November, which is
the earliest date that the state law
can be considered.

TRENCH TALES.

His shrapnel wounds in arm
and shoulder, though not dan-
gerous were not extensive, and
he was newly back from the
hottest kind of fighting; but it
was not at all the fighting that
this particular English officer
was most concerned to talk
about.
"How are we getting on?"
Oh, there nothing to worry
about in that direction. The job
just now is getting rid of
Hoches, and I can tell you it's
going on at a great rate. I
fancy it would startle even our
people, let alone the people in
France, if they knew the ex-
act truth about the rate at
which the Huns are being laid
out. Of course I know nothing
about the figures, but I do
know what I've seen with my
own eyes. How thick their dead
lie on the ground. If their peo-
ple knew the truth of it, they'd
beastly business. But instead of the
truth—Well, look at the official
German casualty lists, re-
published in our papers from
the Huns. For the month of April,
prisoners 538. And we and the
French took forty thousand of
them during that month. Of
course, I know the list does
not say that it includes all the
casualties that occurred during
April; but only that it's the
April list. But you can guess
what the people in Germany
are meant to think about it.
538 against 40,000. And the
figures in killed and wounded
would state them a good deal
more; especially the killed."

NOTABLE HERD IS COMMENTED UPON

Last Issue of the Breeders' Gazette
Discusses The Oak Lawn Farm
of J. E. Kennedy.

George L. Martin, one of the edi-
tors of the Breeders' Gazette, one, if
not the largest, of the stock papers
in the United States, recently paid
Janesville a visit and inspected the
Oak Lawn Farm, owned by John E.
Kennedy. His comments on the herd,
in which he puts his own opinion,
which is most valuable, as he is an
authority on questions of cattle, par-
ticularly the Short Horn breed, makes
most interesting reading and is as
follows:
"Notable purchases of Short Horns
have been made in the past two
years by J. E. Kennedy for the herd
he is founding at Oak Lawn Farm, a
few miles east of Janesville. His
secure possession of Oak Lawn and
improved and beautified it, Mr. Ken-
nedy noted that it was specially
adapted to the production of live-
stock. Accordingly he has made it
one of the best equipped breeding es-
tablishments in the country. The Ga-
zette representative has visited few
farms which are better adapted as
stock breeding nurseries. Its soil is
rich, its crops are of the best and its
timbered pastures are covered with a
luxuriant growth of bluegrass. Sus-
tenance and comfort are assured the
superior Short Horn matrons which
may now be seen grazing in peace
and contentment at Oak Lawn. Oats,
wheat, clover and corn crops of un-
usual promise are to be seen this
season. Two sidings from the prin-
cipal Wisconsin railways to the farm
make the equipment complete. The
Short Horns, numbers, quality, type
and pedigree considered, challenge
comparison with the best collections
in America. They cost much money,
but they are worth it, as any crit-
ic would conclude when he has the
opportunity to study these broad-
back, smooth, breezy types. They
represent the bloodlines of such cele-
brated sires as Whitehall Sultan,
Avondale, Selection, Villager, Cum-
berland's Last, Archer's Hope, and
other noted bulls, all of which have
made places among the greatest, the
best bred and known. They represent
the most fashionable tribes of the
breed. To head this collection, after
much deliberation and study, choice
was made of Maxwilton Amateur, a
grandson of Avondale, at a cost of

IN JAIL IS EMPTY FOR FIRST TIME IN A MONTH

For the first time in a month, Prosecutor "Bob" of the county hostility, by Whipple, announced this morning, "The Bread and Water suite was empty. The last commitment was parole breaker left last night after a turn of ten days on the staff of life and acquittal, minus all fixings. In few instances does a prisoner, once he has broken his parole and has been captured, put under the 'cure' for ten days, care to return for a second trial. Once appears to be fully cured. AUTO LIGHT SUBJECT DISCUSSED BY CHIEF

May Arrest More Tail Light Offenders

Saturday is Last Glary Headlights Will Be Tolerated.

Chief of Police P. D. Champion said this morning that it appears to be necessary to crusade further against tail-light offenders since despite numerous requests a few owners continue to drive their machines without the slightest attention to their tail markers.

Lately it has been the policy of the department when an offender was reported to call him on the telephone and ask him to regard the law. This has given results in the majority of cases but in several there are those who appear to be an antagonistic stand taken by those warned.

The department head also said that there was a general tendency on the part of local automobile owners to comply with the edict to dim the glare headlights. The period which owners were given to make the change in the lights, which necessary is Saturday, and the officers of the department have orders to keep a close watch for glare and strong headlights.

One machine-owner asked the chief how much candle-power he, the chief, wanted autoists to use. The answer was: "I can't answer that question, but can and will say that it is not a matter of how much candle-power there is going into a light as it is whether the light is so bright and glare as to be a nuisance and possibly a cause of accident. You can use ten thousand candle-power, if you can, but your lights have to be toned down to the degree of safety."

Mrs. and Mrs. Thomas Butters announce the arrival of an eight-pound son, on July 10.

News Notes from Movieland

BY DAISY DEAN

Emily Stevens, the gifted stage star who has also been starred in several notable pictures, comes of an old theatrical family and was born in New York city. She is a niece of Mrs. Minnie Maddern Packer, the celebrated actress, and a daughter of Robert E. Stevens and Emma Maddern, both of whom are prominent in the history of the American stage.

Mrs. Stevens made her debut on the speaking stage with Mrs. Packer, playing the part of a maid in "Becky Sharp," in Bridgeport, Conn., in 1899. She remained with Mrs. Packer for eight years, receiving invaluable training under the personal direction of this great actress and the many noted players associated with her.

The first distinct impression created by Miss Stevens on Broadway was in the successful play "Liliuokalani," in which her first prominent role and the critics and the public hailed her as another Mrs. Packer. The following season she added to her laurels playing the leading female role in "The Devil in the Flesh," in which George Arliss was featured. And now she follows this with a remarkable performance in "Septimus."

She has also been in the greatest performance on the spoken stage is the rather role in "The Unhatched Woman," which was the sensation of Broadway during the season of 1915-16. At the close of a long run in New York this play was set on the road and played to record business. Miss Stevens will use this same vehicle for her opening this season.

The work of Miss Stevens in "Septimus," or the "Soul of a Woman," a five-part production, was acknowledged to be one of the best motion picture features produced last year. She has also been starred in "Cory," "The House of Tears," "The Wheel of the Law," "The Wager" and "The Shrike."

The death of a minor player is often a more serious matter in the movies than on the stage. One of the players appearing in the support of Liliuokalani in the first picture she is acting in died after a considerable portion of the film had been exposed. It was necessary to rebuild six scenes that formed the background for the fifth scene of the picture. Arthur Hopkins directed the taking of the picture.

SUMMER CLUB HOLDS MEETING AT MILTON

Mrs. Alfred Anderson Urges Importance of the City Nurse in an Informal Address.

The regular July meeting of the Summer Club of Home Economics was held yesterday at Milton, some thirty members from Janesville going over by train or auto. A picnic dinner was served at noon at the park, a variety of menu being supplied and the Milton ladies furnishing the coffee, sugar and cream. After dinner the program for the afternoon was given by the S. C. E. club and included delightful musical numbers. They were: Organ voluntary, Mrs. W. E. Rogers; vocal solo, Miss Anna Post of Chicago; duet, Miss Post and Mr. Siedhoff; violin solo, Miss Fox.

An informal talk along the line of the work of "The City Nurse" was given by Mrs. Alfred Anderson of Edgerton, leader of the Rock County Women's Council of Defense. She emphasized the idea that the work of a city nurse was along the line of conservation, which is the topic of the present time. She outlined the work of the nurse, as including everything about the homes of the poorer families, beginning with the care of babies and young children. She said that in the course of the day, a nurse is found in making clothing and especially in sanitation and in keeping the children clean.

She said there was a noticeable improvement in the appearance of the school children since the advent of the nurse into the city. The movement to secure the nurse was the result of the work of the clubwomen, which was done in connection with the community Christmas tree two years ago. At that time they found about forty families who through ignorance or misfortune needed a helping hand.

Mrs. Anderson's remarks were practical and to the point on the subject and were helpful in that way. Before the program the business meeting was held, at which one new member, Mrs. Frank Fisher, was taken into the club.

It was voted that as many fresh air children be brought out from Chicago as there were free places offered for entertainment. Miss Eleanor King was empowered to make arrangements for these and to chaperone them on the trip.

Transportation is furnished the children and their leader by the railroad company, and at this meeting of the club, a collection of money was raised by a collection and in other ways to pay the incidental expenses incurred by Miss King.

Mrs. Lyman Morse, the president, and Mrs. Louis Amerahl, secretary, were present at the meeting. The next picnic will be held in Janesville on August 9th, and will include a demonstration in canning.

ART LEAGUE PICNIC AT SOVERHILL HOME

Food Conservation is Discussed at Meeting of Club Women—Plan Two Outings in August.

A very enjoyable picnic of the Art League was held at the home of Mrs. Sanford Soverhill on Thursday afternoon. Luncheon was served at one o'clock at little tables on the lawn. The menu consisted of meat loaf, creamed potatoes, rolls, pickles, coffee, ice cream and cake. Early in the afternoon a business meeting was held, at which matters pertaining to the study of another series of state evening classes were discussed. It was decided to dwell considerably on current events in the program and to have the calendar for another year printed as inexpensively as possible. Mrs. King gave an address on the registration of women, and other things recommended by the state president, Mrs. Harvey, especially in conservation of foods and in the Red Cross work. A delightful program of readings was given by Miss Rachel Woodstock of Chicago, which included a story from Daddy Longlegs and humorous selection, "The New Piano." It was also decided by the club to hold two picnics in August, arrangements for which will be made by Mrs. Charles Sanborn, who was to choose her own committees.

Cooksville, July 12.—There was a large attendance at the entertainment at the Community Center Monday evening. Great credit is given those who took part. A neat sum was realized for the benefit of Red Cross work. Miss Beulah Cole is attending summer school at Janesville. Miss Fay Waller of Evansville is

Emily Stevens.

the prologue and epilogue, and Hugo Hallin will be in charge of the main theme, which is taken from one of Basil King's stories. Miss Cowie is scheduled to complete two photo plays before the opening of the new season, which will see her again in "Liliuokalani" and will bring forth another play from the pens of herself and Jane Murfin. It is called "Daybreak."

Mary Martin, now playing opposite William Farnum, writes poetry in her spare time, or did until she discovered that ink has gone up in price just 100 per cent. "That's tough on us poets," she sighs.

Charles Ray has a new red car. His friends call it the "Red Devil," but his own name for it is "Tobacco."

The ghost of Mrs. Chester Miller. A great many from here attended the barn dance at Mr. Luder's Tuesday evening.

ARE EAGER TO LEARN METHODS OF CANNING

Janesville Women Show Interest in Canning Clubs—Large Attendance At Grant School.

Much interest manifested in the work of the canning clubs was shown yesterday at the various buildings. The meeting at the Grant School was an inspiration both in the attendance and in the interest manifested by those present. A community club is to be one of the direct results of the movement. Beside the women who were taught the canning of peas and other vegetables made on yesterday, there was a class for girls, there was started a little class to teach crocheting to young girls.

At the high school the work was done in the domestic science room and was in charge of Miss Doris Amerpohl. Here some vegetables donated for community use, were canned and classes started. The making of dolls and clothes started out very enthusiastically with a good membership. Miss Mabel Keesey assisted Mrs. George Devins in its management.

Miss Kathryn Horkan and Mr. Krowl of Reedsburg spent the week end with Mr. and Mrs. Wilbert Stewart. Messrs. and Mesdames W. T. Stewart and Joe Hamilton and J. P. McNally attended the school board convention in Janesville Wednesday.
